WHISKY AND SUGAR TRUST SHARES MANIPULATED BY THE CLIQUE.

Outsiders Not Taking Any Risks in Stocks at New York-Local Grain Market Quiet.

At New York, yesterday, money on call was easy at 1 per cent. Prime mercantile paper, 36542 per cent.

Sterling exchange was firm, with actual business in bankers' bills at \$4.85% @4.88 for demand, and at \$4.85@4.85% for sixty days: posted rates, \$4.85\\@4.85\\ and \$4.87@4.87\\; commercial bills, \$4.84@4.84%.

Silver certificates, 64%c bid. Bar silver closed at 64%c per ounce; Mexican dollars, 524c. At London bar silver closed at 297%d. Total sales of stocks were 169,801 shares, including: Atchison, 9,820; Sugar, 27,972; Burlington, 19,990; Nashville, 6,175; Missouri Pacific, 2,860; Rock Island, 2,540; Chicago Gas, 7.810; Distillers', 32,465; St. Paul, 24,-370; Western Union, 2,538.

Speculation was dull on the Stock Exchange yesterday except in Distilling, Sugar, St. Paul and Burlington, in which shares about two-thirds of the entire business of the day was done. London was in the market only as a small seller of St. Paul and one or two of the other arbitrage specialties. The stock of the Whisky Trust was most actively dealt in and there was a revival of the unfavorable rumors recently circulated against this company which represent it to be in serious difficulty. Denials were made from semi-official sources, but whether or not there is foundation for any of the stories current, It is certain that the opinion is general that Distilling is not a safe investment by outsiders. The clique which has been manipulating the stock during the past week was the moving influence therein to-day. Heavy offerings in the early dealings caused a break of 1%, but before noon a recovery of 11% had taken place. In the afternoon there was a reaction of %, a of % and a final loss of %, making a decline on the day of % per cent. Sugar was sold during the morning by the shorts an the absence of supporting orders, re-ceding % per cent. to 194%. In the later trading a covering movement resulted in an advance to 105%, with a reaction of at the close, bringing the prices down Thursday's closing quotation. opened weak and on

by London houses receded 1/2 per cent., but before noon had recovered the entire loss. After midday the room traders sold the stock down to % per cent., the closing price being within 1% of the lowest. Burlington & Quincy, after an opening loss of 1/4, rose 1/2, and then on sales, largely credited to Boston, broke 11/8, the last being the lowest figure of the day. Atchi-son was sold down % per cent, before noon when good buying was met, based on a report that the next annual meeting will be eld next month and that a majority of the directors will be retired and that their places will be filled by prominent railroad financiers. An advance of % followed this, of which ¼ was lost in the final dealings. On a purchase of 110 shares, Central Pacific advanced 3 per cent. The changes in the rest of the list on the day's transactions were merely fractional and were nearly all in the direction of lower values. The market was weak during the greater part of the day and was decidedly heavy

The bond market was rather heavy during the morning, but gained strength as the day advanced and was rather strong at the close. A majority of the issues dealt in show an advance. The transactions aggregated \$940,000. The principal changes on the day are: Advances-Rock Island firsts, registered, 2%; Central Ohio reorganization firsts, Lake Shore firsts, Lehigh Valley, of New York, firsts; Union Pacific, L. & C. firsts; Toledo & Ann Arbor firsts and Wahash firsts, D. & C. extension, 1. Declines-General Electric debenture fives, 41/2 per cent; United States Cordage firsts, 2;

Wheeling & Lake Erle consols, fours, 15%. Government bonds were strong. State cent.; United States Cordage firsts, 2; The following table, prepared by James E. Berry, Room 16. Board of Trade, shows the range of quotations: Open- High- Low- Clos.

LOCAL GRAIN AND PRODUCE. Trade Slowly Improving with Prices

Unling More Steady. The millinery houses, dry goods men

and the boot and shoe merchants speak of trade as being somewhat better than last month, but agree that there is still large room for improvement. Grocers are busy; so are the leather dealers, and hardware men as compared with sixty days ago. On Commission row there is fully as much trade in progress as at the corresponding period of 1893. Still trade lacks snap. It requires low prices and a good deal of urging to sell goods in both the vegetable and fruit lines. Poultry is weak eggs firm, large quantities being packed for the cold storage houses to be sold next Thanksgiving. Clover seed is weak and The local grain market is flat and bidding dull. In track blds only one change was made yesterday, No. 2 red wheat adwancing 14c. Track bids ruled as follows: Wheat-No. 2 red, 494c; No. 3 red, 45c; wagon wheat, 48c.

Corn-No. 1 white, 56c; No. 2 white, 56c;

No. 3 white, 56c; No. 4 white, 52c; No. 2

DUN & CO.'S PARADOXICAL OPINION OF TRADE CONDITIONS.

Uncertain Crop Prospects Affects Bus iness - Bradstreet Finds a Brighter Outlook.

NEW YORK, Sept. 7 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: The business outlook is much like an April day, with alternate clouds and sunshine. In some branches strong improvement still continues, while in others trade is diminishing. Strikes lessen for the time the working force perhaps as much as it is otherwise increased, but the strike of garment makers spreads so rapidly that an early end is considered certain, while the strikes in cotton mills have advanced prices so much that a settlement there is thought not distant. The government crop report is expected to foreshadow believe reports are materially exaggerated. Estimates of the yield range all the way from 1,500,000,000 to 1,700,000,000 bushels. This uncertainty affects business prospects to some extent, and an advance of 1/2 cent the past week has followed, the receipts being not half those of the same week last year. Wheat receipts have been 5,677,157 bushels, against 4,550,337 last year, and yet the price advanced 1/2 cent, although Atlantic exports were only 1,158,674 bushels. against 2,111,644 last year. Pork advanced 25 cents per barrel and lard 25 cents per hundred pounds, as smaller estimates of the corn supply were entertained.

The first bills against spot cotton of the new crop have appeared, and the Financial Chronicle estimates the yield at 8,500,000 to 9,000,000 bales, its record of last year's crop being 7,527,211 bales, though late in the year some prophets predicted only 6,500,000 bales. To all appearance the new crop will exceed the maximum world's consumption exceed the maximum world's consumption of American, of which the stock carried over Sept. 1, here and abroad, was 1,589,484

Sales of wool have fallen to 4,115,100 pounds, of which about a million pounds actually belonged to the previous week, against 7,616,800 in 1892, and domestic fine wool has weakened about a cent at Boston, although Australian has advanced 11/2 cent with stronger foreign markets. Fallures in August aggregated liabilities of \$10,139,477, of which \$3,172,330 were in manufacturing and \$5,078,153 in trading concerns. During the week the failures were 215 in the United States against 323 last year, and forty-seven in Canada against twenty-five last year.

Bradstreet's Trade Review. NEW YORK, Sept. 7 .- Bradstreet's will say to-morrow: Special telegrams from more important distributing points make it plain that in mercantile lines traders are fairly active, fully meeting earlier and more favorable anticipations in a majority of instances and exceeding them in some. An increased number of interior buyers at large cities within the week has served to stimulate the feeling of hopefulness, and aside from the cotton mill strike in New England and distress in the Northwest due to forest fires, the week has not brought unfavorable features. Staple prices tend upward except in wool. There is an mprovement in the demand for money at Boston, New York and Chicago, but rates nor the supply of commercial paper as large. Northwestern wheat carriers have arranged for necessary funds with Chicago banks at 56 cents. A striking feature at the West comes from Chicago, where the volume of business in all mercantile lines has increased, especially in dry goods, the total for the week being the heaviest for the season, notwithstanding conservative purchasing in the market by Northwestern Straight grades, \$2.50@2.75; fancy grades, merchants. This is duplicated at St. Louis, where there has also been a larger volume of sales, both by jobbers and manufacturers, the total for August being equal to that in 1892. Milwaukee has experienced a decided improvement in demand for goods and money, while St. Paul reports that loss of life and destruction of villages and property by fire have checked purchases in that market. Minneapolis anounces that the recent good volume of business there is holding its own. There is reasonable trade at Louisville and Cin-cinnati, the former reporting many visiting buyers, increased sales and manufacturers of woolens anticipating deliveries, while the latter reports that distribution of dry goods alone shows a gain this week. Improvement in some lines and a moderate volume of business in others is characteristic at Kansas City, but at Cleveland there is a better demand for goods in almost all lines. San Francisco reports activity in all lines of business. The grand total of 88,358,000 bushels of wheat available in the United States and Canada, Sept. 1, is 25 per cent. larger than a year ago, and the heaviest stock ever held on a like date. The increase in America and Canadian available wheat stocks in August was 14.855,000 bushels, the largest August increase on record, with the exception of August, 1892. Wheat stocks affoat for and in Europe Sept. 1 amounted to 63,264, 000 bushels, a decrease of nearly one-fifth as compared with the year before. Within three months stocks of wheat in and affoat for Europe have decreased 20 per cent. while those in the United States and Canada increased less than 10 per cent. Exports of wheat, United States and Canada, both coasts (flour included), amount to 3,207,000 bushels during six business days ending Sept. 6. In the previous week the total was 4,640,000 bushels, and in the first week of September, 1893, it was 4,902,000 bushels; in 1892, 3,567,000 bushels, and in 1891, 4,726,000 bushels. Exports of Indian corn to the United States have dwindled to an average of a little over 100,000 bushels

> a week, in striking contrast with quantities abroad in corresponding weeks one two and three years ago. All Southern cities report favorable Birmingham, with increased sales and unimproved collections, the few est. Galveston announces the best week's trade of the year, and Augusta says heavy cotton receipts have stimulated trade. In the region tributary to Nashville it pointed out that the tenuency of prices generally is upward, but that Northern dealers prevent advances by offering at what are called "panic prices." Railway Postal Clerks.

> CINCINNATI, Sept. 7 .- The National Association of Railway Postal Clerks elected to-day the following officers: President, W W. Blackmer: vice president, Thomas A. Beggs; secretary and treasurer, J. C. Wallace; national organizer, William H. Fry; executive committee, F. H. Rice, Howard W. Wickersham, W. W. Safford, E. W. Eddis, W. S. Parner, A. Montgomery and R. A. Whiting. The next meeting will be held in Chicago on the first Wednesday in next August.

Ex-Banker Work Out of Prison. PHILADELPHIA, Sept. 7 .- George F. Work, the banker and financier, who was sentenced in February, 1891, to serve four years in the eastern penitentiary for fraudulently taking and confiscating bank securities, was released to-day, having received, under the commutation law, for

## BULLS PUT TO FLIGHT

BARLEY SHIPPED FROM RUSSIA GIVES BEARS GREAT COURAGE.

Corn Went Off 2 Cents, Wheat Lost a Cent, Oats Were Lower and Provisions Unchanged.

CHICAGO, Sept. 7 .- The public cablegrams do not often furnish a sensation, but to-day's London dispatch to the Board of Trade proved an exception. Two cargoes of Russian barley were reported sold for shipment to New York at a price equivalent to about 46 cents for forty-eight pounds, duty paid, ex-vessel, at the latter port. That Russian invasion at New York was of much advantage to the bears in the grain markets. Corn dropped 2c per bushel for September and October delivery, and wheat broke from 58%c, for December, down to 57@57%c, closing %c lower than yesterday. September oats finished 4c lower and provisions practically unchanged. Wheat averaged strong during the forenoon. It opened with an addition to yesterday's closing price for December of

from 14@%c per bushel, but had some little difficulty in maintaining the advance, owing to occasional lapses of the corn market. Business was heavier than on the day before, but it was not far from reaching its usual autumnal gait. The receipts here and in the Northwest gave some indications of falling off, 214 carloads being all that was reported here, 348 at Minneapolis and 135 at Duluth. The aggregate receipts of 993,000 bushels at the primary Western markets was, however, still too close to the 1,000,000 bushel mark to permit of much comfort to the bulls from any falling off of farmers' deliveries. Cable reported general firmness abroad and, for the most part, ascribed the strength to yesterday's advance here. The Atlantic export clearances were smaller than for any previous day of the week, amounting in wheat and flour to 240,000 bushels. A matter which caused considerable disquiet to the bulls in both wheat and corn was the reported sale of two cargoes of Russian barley at Odesbarley is being imported for feeding purposes or for malting, as claimed by some, it will, in any case, set free an equal quantity of American grain for one or the other of these purposes and that effect became a great loss in corn, while other observers | all the more bearish the longer it was considered and finally it broke both corn and wheat. The opening price of December was at from 58@581 c. and after that the tendency was generally downward. It did not suffer much until after about two hours of the session had passed, but it broke badly after that, losing all but about 1/3c of yesterday's advance, the closing quotation being 57%57%c. The corn market opened with a con-tinuation of the buying fever which struck

the crowd yesterday afternoon, but in the course of the session the speculative wind veered completely around and prices had a severe break. September corn sold early at 58%c and May opened at from 56%c to 56%c. Later, after the sensation of the day had worked itself well into the understanding of the crowd here and the outside people to whom it was telegraphed, the market broke badly. September dropped to 56%c, October to 55%c and May to 55%c, and there was but little subsequent recovery. The sensation was the sale of the Russian barley at Odessa, which also affected wheat. It brought a new element into the stock-feeeding prob-lem, which gave the bears an opportunity they were not slow to avail themselves of when its significance became fully under-stood. Some of the country holders real-ized profits on the opening bulge and the local bull contingent sold heavily. Closing prices were near the bottom of the day's range, closing quotations being: September, 58%c; October, 56%c, and May, 55%

For the first time in a long while the oats market showed some independence. At the start prices were steady to a shade tirmer, but instead of going still higher with the fluctuations in corn, they gradually declined. Later when corn fell off the easier feeling was still more noticeable. There were few buying orders and outside points were prominent in selling, consequently the decline. September opened at 2014c, sold to 3014c and weakened to 30c, closing at 297c. The provision market was quiet but firm and did not take fright like the grain markets at the Russian invasion. Hog re-

ceipts were light at 17,000 head, and only 10,000 are looked for to-morrow. Prices for the products were rather inclined to change, except as regarded January pork, Freights-Vessel room in good demand at 11%c for wheat and 11%01%c for corn to Estimated cars for Saturday-Wheat, 335

Good to choice sheep ......\$2.60@3.00

Bucks, per head .. 

CHICAGO, Sept. 7 .- In cattle the market

was unchanged in its general features. Good to best grades were in fair request and being in small supply commanded strong prices. If none of the offerings sold at as high a figure as was paid on the day before it was because equally good cattle were not offered. There was not more than 2,000 natives of all grades and only a handful of that number graded better than medium. Therefor, the average of prices was low, the bulk of the trading being done under \$5. The range of quotations was \$1.25@6. Receipts of Westerners were estimated at 2,000 head and the range of prices was \$1.50@4.75. Texas cattle receipts were estimated at 3,000 head and sales were on a basis of \$1 25@3.25. In hogs the market continued to strengthen. With the lightest Friday supply recorded within the past eight weeks and shippers and packers both inclined to buy freely sellers ...ad, unmistakably, the best of the situation. They asked higher prices and got them, the day's trading being done at an advance on yesterday's quotations of 16c per 100 lbs. Heavy hogs sold as high as 6.60, which is 10c above the best price paid yesterday, and there were sales of light weights at \$6.25. Common light weights were not much more than steady and 10c covers the advance of the assorted light and fair medium and heavy weights. The greatest strength was in good tops heavy shippers of which continue very small. Sales were reported from \$3.50@4.50 for young pigs to \$6.60 for prime heavy, the bulk at \$5.90@6.40. Slowly but surely the sheep market is mending. The three buyers who are in

some possession seem determined that prices shall not go up, but a rise is inevitable. For months past receipts have been markedly less than at the corresponding time last year, which should have insured fair prices, but they have continued to range from 75c to \$1.50 per 100 lbs lower than in 1893. Within the last month cattle values have appreciated from 50c to \$1 and hogs have moved up \$1.25@1.40, but prices for sheep are scarcely appreciably higher than they were at the lowest time. What is needed in the sheep market is a little competition; there is none now. To-day there was a firm market at \$1@3.50 for sheep and \$1.75@4.25 for lambs. Receipts-Cattle, 7,000; calves, 500; hogs, 18,000; sheep NEW YORK, Sept. 7 .- Beeves-Receipts 3,395 head; on sale 40 cars. Common cattle

steady; other grades 10c higher. Nothing better than fair offered. Native steers,

medium to fair, \$4.40@4.90; inferior to ordinary, \$3.90@4.30; common, \$3.50@3.80; oxen, \$3.20@4.25; bulls, \$2@2.10; dry cows, \$1.40@ 2.75. European cables quote American quiet and unchanged. Tallow dull; prime city, 4%464%c; country, 4½64%c. Cotton steady; middling upland, 75-16c. Receipts—Flour, 4,000 bris, 7,500 sacks; wheat, 37,000 Calves—Receipts, 249; only 57 on sale. Market quiet and steady Sheep and Lambs-Receipts, 6,358; on sale, 15 cars, slow but steady; sheep, inferior t fair, \$2.50@3; lambs, common to good, \$3.7 @4.72½; very choice, \$5. Hogs—Receipts—3,764; on sale, 111 head Market steady; ordinary to choice, \$6@6.35 KANSAS CITY, Sept. 7.—Cattle—Receipts, 5,600; shipments, 2,900. The market was strong, active and 10c higher; Texas steers, \$2.05@3.15; Texas cows, \$1.90@2.25 beef steers, \$3@6; native cows, \$1.92.65 stockers and feeders, \$2@3.50. Transfers, 8; consideration...... \$6,525 "Trilby" Was Expurgated. New York Evening Sun.

There's one comfort. No matter how great the craze for living pictures becomes the stage they are not going to be allowed in the magazines. In the manuscript of "Trilby," Du Maurier's superb novel, which has recently come to a conclusion in Harper's, there was a particularly graphic description of Triby's anatomy as she poses for "the altogether." A council of war was held in the big publishing house, and it was unanimously agreed that this description was just a little too strong for the average Harper's young person. The scene was cut out of the story when it appeared in the magazine, but now that "Trilby" is to be issued in book form the description will be given verbatim, and Mr. Du Maurier's shoulders, which are broad, will be held responsible. On the other hand, all reference to Joe Sibley, the artist, has been stricken from the book. Sibley, as he was described in the magazine, was an extremely disagreeable person, whose characteristics were said to be identical with those of Whistler, the artist. Mr. Whistler evidently thought so, too, for he has begun a suit for. damages against Du Maurier, and has restrained the Harpers from further publication of the character. But, after all, the readers of "Tribly" in book form will lose nothing. The anatomy of so charming a girl as Trilby ought to prove ample com-

May Be Useful Later. Kansas City Journal.

It might be well for Republicans to file away some of the Democratic diatribes on Gorman. The Maryland Senator may be the Democratic candidate for President two years hence.

# THE INDIANAPOLIS

# Daily, Sunday Meekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public.

## Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquainted with the local business and political issues.

It has a correspondent in every cown of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

## THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

# The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doo-
